
IPL Analysis Dashboard

2008–2023

Made with GAMMA

Project Overview

This Power BI project delivers an interactive IPL analytics dashboard focused on team performance, player statistics, tournament outcomes, and season-level insights from 2008–2023.

The dashboard transforms raw cricket data into actionable sports intelligence using interactive visualizations and KPI reporting.

Made with GAMMA

Project Objectives

Performance Trends

Analyze IPL performance trends across seasons

Championship Analysis

Identify championship-winning teams and player achievements

Performance Metrics

Compare batting and bowling performance metrics

Season Analytics

Build dynamic season-based sports analytics

Made with GAMMA

Dashboard Features

01

Tournament KPI Cards

4s, 6s, matches, teams, venues tracking

02

Season-Based Filtering

Dynamic comparisons across years

03

Points Table Analysis

Standings and rankings evaluation

04

Caps Tracking

Orange Cap and Purple Cap monitoring

05

Boundary Analytics

Scoring and contribution insights

Made with GAMMA

Performance Analytics

The dashboard evaluates team consistency, player dominance, scoring patterns, and tournament competitiveness through interactive visuals and statistical indicators.

Made with GAMMA

Tools & Technologies

Power BI

Interactive dashboard development

Power Query

Data transformation and modeling

DAX Calculations

Advanced metrics and KPIs

Data Visualization

Visual storytelling techniques

Made with GAMMA

Skills Demonstrated

Power BI Dashboard Development

Building interactive, user-friendly analytics interfaces

Data Modeling & KPI Reporting

Structuring data for business intelligence

Sports Analytics & Trend Analysis

Extracting insights from performance data

Interactive Business Intelligence

Creating dynamic reporting solutions

Made with GAMMA

Key Features in Action

Tournament KPI Cards

4s, 6s, matches, teams, venues tracking

Points Table Analysis

Standings and rankings evaluation

Caps Tracking

Orange Cap and Purple Cap monitoring

Boundary Analytics

Scoring and contribution insights

Made with GAMMA

Project Impact

The IPL Analysis Dashboard demonstrates advanced sports analytics capabilities through interactive reporting, performance tracking, and business intelligence storytelling.

Made with GAMMA

Conclusion

Analytics Portfolios

Showcase Power BI skills and data visualization expertise

Sports Intelligence

Case studies demonstrating sports analytics capabilities

Power BI Showcase

Presentation-ready project for business intelligence portfolios
